## **PRESIDENT'S REPORT**

Here it is, the start of a new year, a blank page, so to speak. I hope you are refreshed and excited about another year of dowsing.

The DSV Committee hopes you'll benefit from what we're planning for the coming year. We've managed to book our meeting room at the Mount Waverley Community Centre on a more regular basis this year to make it easier to remember the dates. Apart from a couple of exceptions, we're meeting on the third week of every second month. (In August and November we had to opt for the fourth week due to other bookings at the Centre.) You'll find the complete list of meeting dates for 2010 on the last page of this newsletter extract. Please note them in your diary now so that you can plan around them.

We hope to provide more dowsing tuition this year as there's an increasing number of people finding us on the internet and wanting to learn more. I'd like to take this opportunity to encourage you to use our library as a resource for learning more. We have recently added some wonderful new books, and will continue to add more in the months ahead.

At our AGM in April, all positions will become vacant. If you've been a member for 12 months, please consider standing for election.

We hope to see you at the next DSV meeting on 21<sup>st</sup> February at 1.30pm for dowsing practice.

**Lyn Wood,**  
**President**

## **OUR NEXT MEETING**

To launch the 2010 dowsing year for the DSV we are showing Raymon Grace's online video, "*Blueprint for Freedom*" from The Raymon Grace Foundation.

*Raymon Grace*

Raymon's message addresses the topic, Human Trafficking. His intention is for whoever watches the movie to use it as a sort of community service to the world.

The idea in playing this DVD is to direct the energy of it to any home, school, abuse shelter, jail, orphan home or anywhere else you choose. You can even direct it to anyone you suspect of participating in these types of activities.

The wonderful bonus to watching this DVD is that it gives you the opportunity to see how his different dowsing approaches can be applied to complex situations. For less complex problems you might choose to pick up just a few of Raymon's approaches – dowsing each time of course to see what is the most appropriate.

*Editor's note: We are also excited to announce that there is a DSV internet teleseminar with Raymon Grace in the planning stages. We'll bring you more news as it unfolds.*

## ENERGY AND THE AURA

By DSV Member, Mick Moran (Thanks Mick, Ed.)

My interest in pendulum dowsing began when I attended my first Dowsing Society of Victoria (DSV) meeting, where much of the

discussion revolved around pendulum dowsing. I had learnt to dowse using "L" rods a couple of years previously but knew little to nothing about pendulum dowsing. I read a number of books on the subject, but nothing seemed to work. That was until I read a book written by Raymon Grace titled "Techniques That Work For Me". I found the book was written in such a way that was extremely easy to follow. After I had finished reading the book I thought I had better put it to the test. To my surprise and delight I found I could now dowse using a pendulum.

## DIVINE INTERVENTION

From The Weekly Times, January 2010

Stories of water shortages and rivers running dry are becoming more and more common, so while this one is a blast from the past, it makes you think about fate.

On a hot day in summer in the early 1980s, one Riverina family farm (in rural Victoria) was about to run out of water for its stock.

### VICTORIA'S DROUGHT UPDATE

*By DSV Newsletter Editor, Heather Wilks*

Thanks to the DSV members who have continued talking to the Nature Spirits.

We're now also dowsing to avert bushfires, protecting the people, animals and property in high risk areas, while also purposely addressing the negative media hype and those misguided people with an inclination to arson.

Together we can change the energy, all it takes is a bit of dedication and time out to dowse. Our grateful thanks again to Raymon Grace for his advice and quiet support in all of these endeavours.

### HOW TO TALK TO YOUR FUTURE SELF

*By Charles Burke, author "Command More Luck"*

Here's how to get in touch with every talent, every ability you ever wanted for yourself, even if you're convinced you don't have a shred of ability in that area.

Physicists and mystics agree that all of time co-exists simultaneously. The way we experience time, with one moment following another moment after another moment, is (they say) an illusion. In reality, all moments of time are hanging around together, and our consciousness is threading its way through and among those moments of time.

As it turns out, those parallel universes are not actually science fiction after all. They're really there - the physicists say so. We just can't usually see them. But there is one way to perceive them. It's using your intuition (or imagination).
